DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States

Claims 1-16 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Simunek 5,401,024.

As to claim 1, 2, 4-16 '024 shows receiving a bet (col. 1, ln. 16), providing a card as in fig. 4, selecting designations 32 and randomly selecting these designations to 34 and designating a winner and awarding a prize 40. Where '024 shows marking spots (col. 2, ln. 36) such is done electronically and not manually as "daubing" implies. To have manually provided a card and dauber in order to mark paper cards would have been obvious in order to have a non-electronic game. However, from the scope of claim 4, "daubing" is more consistently defined as any marking means including electronic as anticipated by '024. As to claim 3, '024 shows the number "7" duplicated on the card.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dodge, Weingardt, Horan, Luciano, Odom and Smith show bingo type games.
